1. Premises

Transition For is a transdisciplinary collective created with the aim of promoting social design projects dedicated to rethinking places, policies, and practices of reception. The project originated from a two-year agreement between the Prefecture of Agrigento and Farm Foundation, signed on December 29, 2023, to improve the reception spaces for migrants, particularly the Immigration Office of Agrigento and the hotspot of Porto Empedocle. The collective has launched the open call **Transition For Color** to select seven artists who will have the opportunity to transform the reception places in Porto Empedocle and Agrigento through the creation of murals.

In detail:

- **6 artists** will be tasked with creating a mural on one of the six reception pavilions at the Porto Empedocle hotspot (each artist will be assigned one pavilion).
- **1 artist** will be tasked with creating a mural within the immigration offices of the Prefecture of Agrigento.

2. Participation

Participation is free. No registration fee is required.

The call is aimed at artists or artist collectives with experience and/or training in the fields of art and visual design.

The **submitted work** must be an **original** and unpublished design, specifically created for this open call and free of third-party rights.

To participate, it is necessary to fill out the online form at **<https://call.graphicdays.it/it/registration/transitionfor>** by **6:00 PM on September 16, 2024**, uploading the required documents (see point 4).

The **jury** will be composed of representatives from Farm Cultural Park and Graphic Days®, and the **results** will be communicated individually to each candidate via email **by September 30, 2024**.

Selection criteria: originality of the subject, visual impact of the proposal, use of shapes, colors, and layout. The selection will be made at the sole discretion of the internal jury.
